

ePledge

**GO PAPERLESS:
IT'S QUICK & EASY FOR YOU AND YOUR EMPLOYEES!**

Why use ePledge?

ePledge is a highly secure and proven online campaign management system that provides you with the capabilities to run a successful campaign. This campaign management tool allows you to view your company's campaign from a dedicated, secure website, providing one central point for all campaign information. This maximizes efficiency of campaign administration.

It's easy!

Testimonial

"We loved using ePledge for our United Way Campaign. The best part is ePledge was easy for our employees to use! As administrators, we were able to pull reports to monitor our level of participation and promote employee participation. We also could assist our employees with any questions they had. When we did hit a hurdle, we worked with United Way and they were able to make updates for us, which rolled out to the employees in real time. We were hesitant to use this at first because we do a couple of special incentives for those who give, but the staff with United Way made it work for us. We look forward to using the system again for our next campaign."
